The renovation and timber extension of Hotel Post in Andeer received the special «ZusammenWachsen» («Growing Together») award in the Graubünden category of Prix Lignum 2024. This recognition highlights our commitment to sustainable construction and successful collaboration with our partners.

Special thanks go to our partner Mani Holzbau, which carried out the timber construction. TM Schreinerei AG also made an important contribution by carefully designing all the furniture and interiors. Together with Lombardini Management GmbH as the client and our in-house teams, we successfully delivered the project.

This award shows the value of our holistic, interdisciplinary approach – from the initial design to project completion.
