The Wiesental shopping centre project in Chur in time-lapse

Fanzun is the general planner for the renovation and extension of the Wiesental shopping centre in Chur. The new steel construction of the southern entrance hall is progressing quickly in snow and sunshine, as you can clearly see in this time-lapse video.

The old shopping centre is being extended to the south with a single-storey building with a basement. The entrances to the shops will be brought together under this roof. The canopy along Wiesentalstrasse connects the old and new buildings. The façade will become calmer and more elegant. The shopping centre should no longer look so industrial, but blend into the neighbourhood as a place to shop.

Completion of the building is expected in spring 2022.
