

## Apartment building Centro Storico, Poschiavo

New structure

fanzun.swiss/en/referenz/mehrfamilienhauscentro-storico-poschiavo\_en/

## Starting situation and idea

Fanzun was commissioned by a private client to design an apartment building in the heart of Poschiavo town. The brief was to situate the building in a walled garden compound amidst a historic ensemble of buildings. The topmost floor would be used by the client.

## Challenges

The principal task was to create contemporary living spaces for five apartments with 3.5 to 5.5 rooms offering a high degree of comfort as well as sustainability and yet subtly integrate the new building into the town's impressive historic surroundings.

## Approach

The building has the classic three-part format featuring typical elements and proportions of the Borgo region in a contemporary design idiom. This resulted in a convincing synthesis of the old and the new. The new building earned distinguished mention in the Gute Bauten 2013 Graubünden (Fine Buildings 2013 Graubünden) competition.

Developer: Michela Pedrazzi, Poschiavo

Completion: 2011

**Project type:** New structure **Project author:** Fanzun AG **Construction costs:** CHF 4,0 Mio

**Scope of services:** Architecture, Interior Design, Civil Engineering, Structural Engineering, Acoustics, Energy, Guidance, Overall Supervision, Project Management, Construction Management, General Planning,

Development, Feasibility Studies, Design

**Fanzun AG** Architekten · Ingenieure · Berater Ganzheitlich entwickeln, gestalten und realisieren.
