

UNESCO gives the go-ahead for hotel project in Dubrovnik

Medienmitteilung

■ fanzun.swiss/?p=64840/

In the Heritage Assessment Study HIA for the hotel Belvedere, the impact of the project on the nearby UNESCO World Heritage Site of the Old City of Dubrovnik was examined. The HIA study arrives at the conclusion that the project has a positive impact on the existing situation and is a beneficial contribution to World Heritage Site.

„This is a great merit of Studio 3LHD architects and also confirms the implemented process of holistic project development“, says Günther Bischof from Fanzun AG Zürich, responsible for project development and project management. The project of Studio 3LHD has been awarded as winner in international architectural competition with contributions from Foster and Partners, Zaha Hadid, Kengo Kuma, Richard Meiers and others. Now it is up to the City Council of Dubrovnik to confirm the adapted General Urban Plan (GUP) which will be an important milestone for the project.
